

on-line training course

March 2024

9:00-12:15 and 14:00-17:15 CEST (21-22)

Basic knowledge of agronomy and modelling [+ R for 13th].
Internet access, webcam.
STICS installed in advance (instructions sent to students
before the course) [+ R, Rstudio and SticsRPacks for 13th].

Make you autonomous in the use of the STICS model, thanks to a presentation of the theoretical formalisms and exercises of use on real cases, with support from the trainers during practical works and a group work between the 2 sessions making up the training.

Website for the registration:

<https://formationstics.workshop.inrae.fr/>. If you need further support , please, send an e-mail to Isabelle Le Mouëllic (isabelle.le-mouelllic@inrae.fr).

Deadline: 1st March 2024.

Max. number of students: 30. First registered first served. The course costs 400€ for INRAE agents, 480€ (TTC) for public organizations, and 1200€ (TTC) for private companies. Course and support will be held in English.
